In Year Admissions into Primary School – (mid-term and mid-phase)

If a family arrives in Newham during the school year 2026/2027 and their child needs a school place, they must complete an **In-Year Application Form** naming their preferred schools.

The place offered may not be at the school the family prefers as that school may not have a suitable place available. Please note that places are allocated by the Borough and not the chosen schools. Therefore, it is important to contact Newham's admissions team if you have any concerns with your application.
