Story

Being Curious By Pratize Ghosh

Once upon a time there was a family that had two kids called Lily and Savana and a mom. One time the family was at the mall and saw a poor girl called Aliza. The kids were curious why their mother had adopted a homeless child because their mother never adopted a homeless child before. When they came home their mother introduced their new family member.

The mom said, "This is our new family member" and their mom said to clap, but the sisters didn't clap. The sisters were very jealous because their mom has bought so many clothes for Aliza. The mom also bought a new mansion and Aliza had a vip big room but the sisters had small rooms.

As they were getting older Aliza always used to wear detective clothes and Lily and Savana had enough. So they decided to follow her secretly to be disguised themselves as different persons. Then they started to follow Aliza where she's going. It was a long way but they finally got there. It looked like a shop invention from 1944. It was very dark brown colour. The inventions looked very cool.

When Savana tried to touch one thing, Aliza stopped her and said, "If you want one thing you have to ask me then I will give it to you." Aliza didn't realize who the person was because Savana and Lily disguised themselves. After they left the place they felt a little change for some reason. When Lily and Savana reached at home they asked their mom why they have a tiny room. Their mom said, "Be grateful with what you have." Should the mother? The kids went to their room and FaceTimed them on computer.

Then Lily went to Aliza's room and found out that
at home she was making a double sided coin stair
and they were so cool!! After they had lunch they
were running to the garden before Aliza came because
they were going to set a plan but it was too late. Aliza
came to the garden told the sisters that "can't play
with you?" But the sisters said "No! You are too young." Aliza
said "you mean" and cried off. The sisters laughed and
said "what a cry baby". After a few years have passed
by Lily and Savana they realized that Aliza was a good
kid. Then they both apologized about how they were
mean. Then after onwards they were asking questions
about each other. Lily said "where are you come from?" Aliza said
"I'm from Mexico city but I was lucky to
come to England." Oh! said Lily "that's good".

They asked one question each day. Their mum was
very happy to see the children playing together. But their
mum was curious why they were playing together. So
the mum decided to put up security cameras to see
what they are up to. Then the mum was watching them on
the phone. Then the 3 kids there were 10 potions in a shelf and
they used 2 potions. One was cooding and brain power
makes people smart. Then Aliza mixed two of the potions
together and fed Lily and Savana the potion and they
became smart.

The mother saw these on the phone and was shocked! She quickly ran to Aliza's room and said "What are you feeding them"! Shouted the mother. Aliza said "I am making them smart. Finally they became best friend forever and lived happily ever after."

The End.
