

Science!!! Smile please!

I have enjoyed
the science week
and the food stall.
I have learnt
lots of things about
mould like how does
it come, when does
it come, what is
that etc.

This is me holding the
mouldy bitter apple at science week.

I really enjoyed
eating in the food
stall and they gave
me two extra
chocolate muffins.
I made a rocket
in the workshop and
I really loved it.

My costume in
science week was
Abdul Kalam the
Indian scientist because
he was a really
hard worker and said
dream to achieve
something.
