

## 1.2 ORDER, ORDER!

**Objective:** Read, write and order numbers to at least 1,000,000

### Instructions

1. Make a set of 0-9 number cards, and distribute them randomly around the room/garden
2. Run and collect a card, four times, and write down a 4-digit number using the cards
3. Take the cards back, and repeat the process until you have five 4-digit numbers written down
4. Rewrite the list of numbers in order from smallest to largest
5. Can you complete this whole task quicker than your partner?

### Challenge

Vary the exercise you do when collecting the cards - and make five 5-digit numbers and order them!
